Reproduction of a testimonial letter from Novatech

To: Jim Weist –President
Michael Byrne Manufacturing
1855 Earth Boring Rd
Mansfield, Ohio 44901

Indeed, we bought auger boring machines, augers & cutting heads 48" manufactured by Michael Byrne Mfg. We have used this equipment for two years and can confirm that these machines and augers are made with very good quality, we never had any problems or breakdowns. Periodically we give augers for rent to other companies, it also did not arise any problems.

We recommend you this manufacturer, because they are of good quality and great experience in manufacturing of drilling equipment.

Good service is also the advantage of the company.

I attach a few photos using machines in Russia.
